Prepared by: James Gunn (June 2003)
Introduction

1. This preface to the International Standards on Quality Control, Auditing, Assurance, and Related Services (“International Standards” or “IAASB’s Standards”) is issued to facilitate understanding of the objectives and operating procedures of the International Auditing and Assurance Standards Board (IAASB) and the scope and authority of the pronouncements it issues, as set forth in the IAASB’s Terms of Reference.

2. The mission of the International Federation of Accountants (IFAC), as set out in its constitution, is “the worldwide development and enhancement of an accountancy profession with harmonized standards, able to provide services of consistently high quality in the public interest.” In pursuing this mission, the IFAC Board has established the IAASB to develop and issue, under its own authority, high quality Standards and Practice Statements on auditing, assurance and related services, and quality control standards for use around the world.

3. The IAASB’s pronouncements govern audit, assurance and related services engagements that are conducted in accordance with International Standards. They do not override the local laws or regulations that govern the audit of historical financial statements or assurance engagements on other information in a particular country required to be followed in accordance with that country’s national standards. In the event that local laws or regulations differ from, or conflict with, the IAASB’s Standards on a particular subject, an engagement conducted in accordance with local laws or regulations will not automatically comply with the IAASB’s pronouncements. Professional accountants should not represent compliance with the IAASB’s pronouncements unless the professional accountant has complied fully with such pronouncements.

4. The IAASB is committed to the goal of an international set of Standards generally accepted worldwide. To further this goal, the IAASB aims to establish Standards to which national standard setters can subscribe and works cooperatively and takes a lead role in joint projects with national standard setters to promote convergence, eliminate differences between national and international standards and achieve broad acceptance of its Standards.

The International Auditing and Assurance Standards Board

5. The IAASB is a Board established by IFAC.

6. The members of the IAASB are appointed by the IFAC Board to serve on the IAASB. The IAASB comprises eighteen members, ten of whom are put forward by member bodies of IFAC, five of whom are put forward by the Forum of Firms¹, and three public members who may be members of IFAC member bodies but shall not be members in public practice. Candidates for appointment as public members may be put forward by any individual or organization. Candidates put forward, including the Chair of the IAASB, are considered by IFAC’s Nominating Committee. The selection process is based on the principle of “the best person for the job”. IAASB members serve for three years, with one third of the IAASB membership rotating every year. Continuous service on the IAASB is limited to two (2) consecutive three (3) year terms. IAASB members act in the common interest of the public at large and the worldwide accountancy profession. This could result in their taking a position on a matter that is not in accordance with current practice in their country or not in accordance with the position taken by those who put them forward for membership of the

¹ The Forum of Firms is a collaboration of public accounting firms that share the common objective to promote consistently high standards of financial reporting and auditing worldwide in the interest of users of the profession’s services and the general public.
IAASB. Members who absent themselves from two meetings in any twelve month period may be requested to resign from the IAASB.

7. The IAASB may appoint task forces to assist it in the development of materials. These task forces may include individuals who are not members of the IAASB.

8. IAASB meetings to discuss the development, and to approve the issuance, of Standards, guidance or other pronouncements intended to advance the public understanding of the roles and responsibilities of professional auditors and assurance service providers are open to the public. Agenda papers are published on the IAASB web site.

The Authority Attaching to Standards Issued by the International Auditing and Assurance Standards Board

9. International Standards on Auditing (ISAs) are to be applied, as appropriate, in the audit or review of historical financial information.

10. International Standards on Assurance Engagements (ISAEs) are to be applied in assurance engagements dealing with information other than historical financial information, when specific Standards for such engagements do not exist.

4. International Standards on Related Services (ISRSs) are to be applied to compilation engagements and engagements to apply agreed upon procedures to information, and other related services engagements.

52. ISAs, ISAEs and ISRSs are collectively referred to as the IAASB’s Engagement Standards.

6. International Standards on Quality Control (ISQC)s are to be applied for all services falling under the IAASB’s Engagement Standards.

74. The nature of Standards issued by the IAASB requires professional accountants to exercise professional judgment in applying them. In exceptional circumstances, a professional accountant may judge it necessary to depart from the basic principles and essential procedures of an Engagement Standard to achieve more effectively the objective of the engagement. When such a situation arises, the professional accountant should be prepared to justify the departure.

8. Any limitation of the applicability of a specific Standard is made clear in the introductory paragraphs to that Standard. Unless otherwise indicated, the entirety of the text contained therein, including appendices, is considered to be applicable to the purpose of the Standard.

96. In circumstances where specific Standards or guidance contained in a Standard are not applicable in a public sector environment, or when additional guidance is appropriate in such an environment, IFAC’s Public Sector Committee so states in a Public Sector Perspective (PSP). When no PSP is added, the Standard is to be applied as written to engagements in the public sector.

The Authority Attaching to Practice Statements issued by the International Auditing and Assurance Standards Board

10. Practices Statements do not establish any new basic principles or essential procedures.

2 IFAC and the IAASB are presently developing processes with the International Organization of Supreme Audit Institutions (INTOSAI), the objectives of which are to obtain INTOSAI support and input during the development of exposure drafts and to remove the need for PSPs. The IAASB will be asked to approve operating procedures with INTOSAI in July 2003. The IFAC Public Sector Committee and the use of PSPs is expected to continue until October 2003.
11. International Auditing Practice Statements (IAPSs) are issued to provide interpretive guidance and practical assistance to professional accountants in implementing ISAs and to promote good practice. International Assurance Engagement Practice Statements (IAEPSs) and International Related Services Practice Statements (IRSPSs) are issued to serve the same purpose for implementation of ISAEs and ISRS respectively.

12. Professional accountants should be aware of and consider Practice Statements applicable to the engagement. A professional accountant who does not consider and apply the guidance included in an applicable Practice Statement should be prepared to explain how the basic principles and essential procedures in the Standards addressed by the Practice Statement have been complied with.

**The Authority Attaching to Other Pronouncements Issued by the IAASB**

13. Other pronouncements, for example Discussion Papers, are issued to promote discussion or debate on auditing, assurance and related services and quality control issues affecting the accounting profession, present findings, or describe matters of interest relating to auditing, assurance, related services and quality control issues affecting the accounting profession. They do not establish any basic principles or essential procedures to be followed in audits, assurance or related services engagements.

**Working Procedures**

**STANDARDS AND PRACTICE STATEMENTS**

14. For Standards and Practice Statements, project proposals are developed and approved by the IAASB. As part of this process, input is sought, where practicable, from the IAASB Consultative Advisory Group, national standard setters and others so as to obtain a broad spectrum of views. After approval, the IAASB’s working procedure is to assign responsibility for the project to a task force established for that purpose. The task force will ordinarily be chaired by a member of the IAASB and may contain members who are not members of the IAASB. The task force has the initial responsibility for the preparation and drafting of Standards and Practice Statements. The task force develops its positions based on appropriate research and consultation, which may include, depending on the circumstances: commissioning research, consulting with practitioners, regulators and other interested parties, as well as reviewing professional pronouncements issued by IFAC member bodies and other parties. The task force prepares an exposure draft for the IAASB to review and debate during deliberations in meetings open to the public. When approved, the IAASB exposes draft Standards for public comment. It also ordinarily exposes draft Practice Statements for public comment unless it decides that there are particular circumstances justifying non-exposure. The exposure draft is placed on the IAASB’s web site and is widely distributed for comment by member bodies of IFAC, organizations that have an interest in auditing, assurance, related services and quality control Standards and Statements, and the general public. Adequate time is allowed for each exposure draft to be considered by the persons and organizations to whom it is sent for comment and the exposure period will ordinarily be no shorter than 90 days.

---

The objective of the IAASB Consultative Advisory Group (CAG) is to provide a forum where the IAASB can consult with representatives of organizations representing different groups of constituents to obtain input on its work program, project priorities and due process on major technical issues, and to receive feedback on its activities. The current membership of the CAG is set out on the IAASB web site and the IAASB Annual Report.
15. The comments and suggestions received as a result of this exposure are considered and the exposure draft is revised as appropriate. When the revised draft is approved, it is issued as a definitive Standard or Practice Statement. If the changes made after exposure are considered by the IAASB to be substantive, the IAASB will vote on whether re-exposure for comment is necessary. The IAASB will set an effective date for the application of its Standards; Practice Statements will be effective 60 days after the end of the month they are approved by the IAASB.

**OTHER PRONOUNCEMENTS**

16. For other pronouncements, such as Discussion Papers, the IAASB Chair will appoint a review group of four IAASB members to consider whether a draft paper has sufficient merit to be added to the IAASB’s assurance and auditing literature. The draft paper may come from any source and the IAASB need not have specifically commissioned it. If the review group believes that the paper has sufficient merit it recommends to the IAASB that the paper be issued and added to its literature.

**VOTING**

17. Each IAASB meeting requires the presence, in person or by simultaneous telecommunication link, of at least twelve appointed members.

18. The affirmative votes of at least two thirds of the members present at a meeting in person or by simultaneous telecommunications link or by proxy, but not less than twelve, is required to approve exposure drafts, re-exposure drafts, Standards and Practice Statements. Other pronouncements, such as Discussion Papers, require the approval of a majority of the members so present. Dissenting opinions will not be included in the exposure drafts or pronouncements issued by the IAASB but will be included in the minutes of the meeting.

19. Each member of the IAASB has the right to one vote. A member has the right to appoint a proxy in writing. The proxy may be the member’s technical adviser or another IAASB member.

**Language**

20. The sole authoritative text of an exposure draft, Standard, Practice Statement or other pronouncements is that published by IFAC in the English language.

---

4 Each IAASB member has a right to appoint one technical advisor who has the privilege of the floor at meetings.
Appendix

Structure of the IAASB’s Technical Pronouncements

[See next page]
“IFAC Code of Ethics”

Scope of services addressed by the IAASB

ISQCs 1-99 “Quality Control Standards” (to be created)

“Assurance Framework”
(to be derived from paragraphs 1-30 of the current ISAE 100)

ISA 100 “Audits and Reviews of Historical Financial Information”
(to be derived from ISA 120 and ISA 200)

ISAEs 2100-2399
Topic that apply to all subject matters (to be created as needed)

ISAEs 2400-2699
Subject specific standards (to include current ISA 810)

ISAE 2000 “Other Assurance Engagements”
(to be derived from paragraphs 31-74 of the current ISAE 100)

Related Services Framework” (to be prepared if needed)

“Related Services Framework” (to be prepared if needed)

Agreed-upon procedures

Compilations

ISRS 3100
(currently ISA 920)

ISRS 3101
(currently ISA 930)

IAEPSs 2700-2999
Practice statements (if needed)

Audits ISAs 200–799
(current ISAs 210-799)

Reviews ISAs 800–899
(current ISA 910)

ISAs 900–999
(to include current ISA 800)

Evidence

IAEPs 2700-2999
Practice statements (if needed)

Data

Systems and processes

Behaviors

IAPSs 1000-1999 Practice Statements
(current IAPSs 1001-1013)

Historical financial statements

Other historical financial information

ISAs 900–999
(to include current ISA 800)

IAPSSs 1000-1999 Practice Statements
(current IAPSSs 1001-1013)
