Activities since Last IAASB Discussions

4. The IESBA approved its ED in February 2012 and the comment period closed at the end of May 2012. With the cancellation of its October 2012 meeting, the IESBA has had no opportunity to consider the ED responses in detail until its upcoming December 10-12, 2012 meeting. However, with a view to sensitizing the IESBA to the key issues arising on exposure, the IESBA Task Force Chair provided a brief update on the significant comments received on the ED at the October 15, 2012 IESBA teleconference.

¹ The ED and comment letters are available on the IESBA website at: [http://www.ifac.org/publications-resources/proposed-change-definition-engagement-team](http://www.ifac.org/publications-resources/proposed-change-definition-engagement-team).
² Proposed ISA 610 (Revised), *Using the Work of Internal Auditors*
5. To maximize interaction and coordination, the ISA 610 and Engagement Team Task Forces held two joint teleconferences on November 19 and 27, 2012 to consider the significant ED comments and to enable both Task Forces to finalize their recommendations for the respective Boards’ December 2012 meetings.

6. In addition, the leaderships of the two Task Forces held two teleconferences with the International Organization of Securities Commissions (IOSCO) on November 7 and 26, 2012. Also, IAASB Members Jean Blascos and Jon Grant and Technical Director James Gunn participated in the meeting of the European Audit Inspection Group (EAIG) on November 15, 2012, at which the topics of the definition of engagement team and Direct Assistance were discussed. A summary of the discussions with IOSCO and EAIG is provided in Agenda Item 4-A.
