9 September 2014

Dear Sirs,

Proposed Changes to the International Standards on Auditing (ISAs)–Addressing Disclosures in the Audit of Financial Statements

Introduction

We are the Quoted Companies Alliance, the independent membership organisation that champions the interests of small to mid-size quoted companies in United Kingdom. Their individual market capitalisations tend to be below £500m.

The Quoted Companies Alliance is a founder member of European **Issuers**, which represents over 9,000 quoted companies in fourteen European countries. The Quoted Companies Alliance Financial Reporting Expert Group has examined your proposals and advised on this response. A list of members of the Expert Group is at Appendix A.

Response

We welcome the opportunity to respond to this consultation. We believe that the IAASB's proposed changes could create more clutter in companies' annual reports and accounts. Auditors are already required by the ISAs to audit note disclosures and read information accompanying the financial statements. If auditors are compelled to place yet more emphasis upon disclosure requirements then, ultimately, there will be more pressure put on companies to add more disclosures. We believe that any changes could exacerbate current challenges and issues faced by auditors and companies with materiality.

We urge the IAASB to focus on the changes that support and improve existing disclosures and avoid expanding the rulebook by adding more disclosure. We do not support any changes that would lead to increasing the length of an auditor's checklist, as this means that the auditor will have less discretion to apply in terms of evaluating materiality. We fully support measures aimed at reducing the length of the rulebook for auditors.

Yours faithfully,

Tim Ward
Chief Executive
