INTRODUCTION TO THE INTERNATIONAL PUBLIC SECTOR ACCOUNTING STANDARD UNDER THE CASH BASIS OF ACCOUNTING—ISSUED IN 2017

The International Public Sector Accounting Standards Board (the IPSASB) develops accounting standards for public sector entities referred to as International Public Sector Accounting Standards (IPSAS). The IPSASB recognizes the significant benefits of achieving consistent and comparable financial information across jurisdictions and it believes that the IPSAS will play a key role in enabling these benefits to be realized. The IPSASB strongly encourages governments and national standard-setters to engage in the development of its Standards by commenting on the proposals set out in its Exposure Drafts and Consultation Papers.

The IPSASB issues IPSAS dealing with financial reporting under the cash basis of accounting and the accrual basis of accounting.

The adoption of IPSAS by governments will improve both the quality and comparability of financial information reported by public sector entities around the world. The IPSASB recognizes the right of governments and national standard-setters to establish accounting standards and guidelines for financial reporting in their jurisdictions. The IPSASB considers that this Standard is an important step forward in improving the consistency and comparability of financial reporting under the cash basis of accounting and encourages the adoption of this Standard. Financial statements should be described as complying with this IPSAS only if they comply with all the requirements of Part 1 of this IPSAS.

The IPSASB encourages governments to progress to the accrual basis of accounting and to harmonize national requirements with the IPSAS prepared for application by entities adopting the accrual basis of accounting. Entities intending to adopt the accrual basis of accounting at some time in the future may find other publications of the IPSASB helpful, particularly Study 14, *Transition to the Accrual Basis of Accounting: Guidance for Governments and Government Entities*.
