

Assessment of the Regulatory and Standard-Setting Framework

Section 1 -- Introduction

The information required from member bodies for the IFAC Member Body Compliance Program will be collected in two parts:

- Part 1: Assessment of the Regulatory and Standard-Setting Framework (provides information about regulatory requirements and standard-setting processes in member body countries); and
- Part 2: Assessment of Compliance (provides information on compliance by member bodies with the Statements of Membership Obligations).

The content of this assessment relates to Part 1 and includes 138 questions, of which 23 relate to information IFAC regularly collects from its member bodies and the remainder relate to IFAC's Member Body Compliance Program. The purpose of this assessment is to collect information on the roles of IFAC member bodies and other organizations (including government, regulatory or other appointed authorities) with respect to:

- a. Setting auditing, accounting, ethics, public sector and education standards; and
- b. Regulating the accountancy profession.

The deadline for completion of this assessment is December 31, 2011.

As indicated in the Compliance Working Group's recommendations to the IFAC Board, the IFAC staff will review completed assessments and validate the responses with external knowledgeable parties (for example, other member bodies, regional accountancy organizations, firms, or regulators) as necessary. Additionally, the information will be made available to the Public Interest Oversight Board.

Responses to certain questions may be common among member bodies in one country and for such questions IFAC encourages member bodies to minimize the duplication of effort. In addition, certain questions may not apply to the role of certain member bodies and responses are therefore not required for such member bodies. Where necessary, please communicate with other member bodies in your country to minimize duplication or clarify your organization's need to respond to particular questions.

IFAC will publish the results of this assessment on its website and use the collected information to establish an understanding of the role of IFAC member bodies in standard setting and regulation of the profession.

Part 2 of the Member Body Compliance Program will also require member bodies to complete a self-assessment. The information collected during Part 2 will be used in conjunction with the information submitted during Part 1 to evaluate how the member body complies with the Statements of Membership Obligations.

Completion of the assessments during Part 1 and Part 2 of the Compliance Program is mandatory for all member bodies.

A "Certification of Chief Executive" must accompany the completed assessment.

The Accountants Law Article 7 sub article 11 require ICPAR to issue and to promote the implementation of accounting and auditing standards in public organs and private sector.

Article 247(7) of the Company Law requires auditors in the course of their audit to confirm that companies have complied with international accounting standards. This requirement is also in article 254 of the companies’ law.
