

BACKGROUND NOTE ON ACTION PLANS

SMO Action Plans are developed by IFAC Members and Associates to demonstrate fulfillment of IFAC Statements of Membership Obligations (SMOs). SMOs require IFAC Members and Associates to support the adoption¹ and implementation² of international standards and other pronouncements issued by independent standard-setting boards under the auspices of IFAC as well as by the International Accounting Standards Board (IASB); and to establish a Quality Assurance (QA) review and Investigation and Disciplinary (I&D) systems.

IFAC Members and Associates conduct a self-assessment against the requirements of SMOs and identify areas where improvements are needed. Based on the results of the assessment, Members and Associates develop an SMO Action Plan to (a) demonstrate how they fulfill the requirements of the SMOs and (b) where some requirements are not yet addressed, to present plans towards their fulfillment.

SMO Action Plans are designed to be ever-green documents that provide a comprehensive description of the accountancy profession and its legislative and regulatory environment in the jurisdiction as well as the actions undertaken by IFAC Members or Associates to support adoption and implementation of international standards and best practices.

Regular updates of the SMO Action Plans are required as part of the IFAC Member Compliance Program.

Use of Information

Please refer to the [Disclaimer](#) published on the Compliance Program website.

ACTION PLAN

IFAC Associate:	Salvadoran Institute of Certified Public Accountants (ISCP)
Approved by Governing Body:	Salvadoran Institute of Certified Public Accountants (ISCP)
Original Publish Date:	October 2010
Last Updated:	August 2019
Next Update:	August 2022

¹ *Adoption* is concerned with the decision that international standards are appropriate for use in specific national financial reporting environments and with the actions necessary to effect those decisions, including incorporation into national requirements or requiring the use of international standards through law. Adoption may include a process to review draft international standards, translation, public exposure of proposed standards, approval, incorporation into national requirements as necessary, and promulgation of final standards, and, where applicable, a convergence process to eliminate or minimize differences between international and national standards.

² *Implementation* may include a process to build awareness of the adopted standards, provide relevant education and training, develop or disseminate implementation guidance and any other activities that promote proper understanding and use of the standards in practice.

GLOSSARY

CCC	Quality Control Committee
ISCPs	Salvadoran Institute of Certified Public Accountants

CSMO-5	Public Sector Committee
CSMO-6	Investigation and Discipline Committee
DAC	Accounting Update Program
UIC	University Interchange Committee
GOES	Government of El Salvador
SSF	Superintendence of the Financial System

Action Plan Subject: General Description of Organization, Environment and Goals of the Action Plan
Action Plan Objective: Describe Regulatory and Standard-Setting Framework, Governance, Challenges and Key Success Factors

General Background

The Salvadoran Institute of Certified Public Accountants (ISCP) was constituted on October 31, 1997, as a non-profit association, nonpolitical, that was created by the fusion of what was: The College of Salvadoran Academic Public Accountants, The Association of Certified Public Accountants, and the College of Public Accountants. The objective of the ISCP is to promote a program in order to increase the quality and quantity of the training needed for the development of professional public accountants, increasing the number of participants, both within and outside of our office premises. Within the five-year plan 2018 to 2022, we plan to have developed 29,890 participants. For this, we have established goals in the areas of number of participants, members, revenue, and profits. Such goals are contemplated in a five year plan, considering the vision of ISCP and of the SMOs. Our purpose is to exist in order to strengthen the capacities and abilities of the professional accountant in all areas in which they make their professional work, including, protecting and defending the exercise of our profession.

Since its establishment, the ISCP has managed to maintain filial offices in the representative areas of El Salvador, located in the departments of San Miguel, Santa Ana and Sonsonate, who are organized with their respective boards of directors that follow the guidelines and strategies of the Board of Directors. Central.

The ISCP, as an Associate of IFAC, is monitoring the new pronouncements issued by the IAASB, IAESB, and the IPSASB and based on any new declarations, will adjust to what is in force in El Salvador by the regulatory body (CVPCPA)

Regulatory and Standard Setting Framework

The Oversight Board of the Profession of Public Accounting and Auditing (CVPCPA), has the objective and function of giving compliance to the Regulatory Law of the Public Accounting Profession, establishing ethical and technical standards that regulate the accounting profession, the auditors and the public accountants According to the dispositions set forth in the Law, its bylaws, and other applicable regulations; as such, being the authority in El Salvador in order to define the accounting and auditing standards in El Salvador. In 2003, the International Financial Reporting Standards (IFRS) and the International Auditing Standards (IAS) were adopted, and in 2009, the International Financial Reporting Standards for Small and Medium Sized Entities (IFRS) and their updated Spanish versions were adopted in 2016. In conformity with the Accounting Act of the Accountancy Exercise (LREC), the ISCP keeps a representative in the CVPCPA, the tasks of such representatives include giving permanent assistance and influence in the CVPCPA, on: 1) the formulation of law projects and necessary by laws to regulate the profession, as well as any regulations, previous to the approval of such; 2) set the general standards for the preparation and presentation of the financial statements and supplementary information of the subject entities; 3) Determine the principles and standards based on which, the companies should keep the accounting books and establish the valuation criteria for assets, liabilities, and constitution of provisions, accumulated reserves, etc. 4) in order to approve the accounting principles and generally accepted international standards of auditing, including financial standards, when the law has not been expressed on them; and collaborate with the promotion of ethical standards, and other technical or ethical dispositions that have to be complied with in the exercise of the profession.

In January 2018, the Code of Ethics for Professional Accountants, emitted for the International Ethics Standards of Accountants (IESBA), its validity was concluded by the CVPCPA and a new Local Code of Ethics was put into effect. However, the ISCP will continue to disclose IFAC regulations among its members; However, at the initiative of the ISCP, in December 2018, the new Board of Directors of CVPCPA was asked to evaluate, analyze and re-implement the IFAC Code of Ethics, this was achieved and El Salvador will have the IFAC Code of Ethics for 2019.

Governance Framework

The Governance of the ISCP is integrated by the following organisms: The General Assembly of Associates and the Central Director's Board. The affiliate boards will report and coordinate communication with the Central Director's Board. The ISCP has established permanent working commissions and committees, as an answer to the needs that are presented for the adequate performance of the activities. The ISCP has created an Administrative Director position and an Academic Director position, actually these positions are being held by Rosibel de Hernández and Rene Paniagua,. Each member of the Board of Directors has been assigned as leader to develop, follow up, and report once a month to the Board of Directors, the work developed in compliance with the requirements of each SMO. Each Commission counts with different specific and permanent Committees, in order to fulfill the specific requirement of each SMO, where we have direct impact, such as continuing education. These Committees are coordinated by the respective leader, like this keeping an adequate orientation of the activities that have to be performed, as well as to obtain constant feedback. For more information please visit our web site: www.iscpelsalvador.com.

Challenges and Key Success Factors

The current Central Board of Directors will perform their leadership for the period two years; the current board of directors has been elected for the period of March 2019 to March 2021. The majority of its members had been performing on previous Board of Directors, achieving the continuity of the previously established action plans.

The main actions taken by the current Board of Directors is following a strategic plan for the ISCP. A summary of the referred strategic plan, includes the Key Performance Indicators to pursue and achieve for the 2018-2022 period; these are the following: Number of participants: get to 29,890 in 5 years; Members: get to 1,575 in 5 years, Revenue: get to \$ 600K in 5 years, Profit: get to 3.9% of total income each year. For this we have defined our values, which are the following: 1) Comply with our goals, 2) Remain conscientious of our image at all times, 3) Maintain and promote a good continued communication, and 4) Be professional and promote ethical behavior.

Congruently, we have established 4 strategic initiatives: 1) Create and develop a commercial strategy for affiliation, 2) Develop the process of courses and seminars of continuing education on the ISAs, IFRSs, ethics, taxes and commerce laws, additionally by the changes in The LREC will include training for business accountants 3) Develop plans of investment and budgeting, and 4) Align to the IFAC requirements in alignment with our institutional vision. This has taken us to create 11 key performance indicators in the areas of finance, membership, processes and resources, aligned with our strategy: 1) Profitability, 2) Increase of Revenue, 3) Efficiency in Costs, 4) Training with real impact, 5) Support for accounting students in universities, 6) Technical Support web, 7) Divulcation and ethical support, 8) External communication of events, 9) Planning of events, 10) Evaluation of events, and 11) List of trainers.

For conducting this strategy we have created the necessary commissions for its administration. These commissions are the following: Administrative and Finance Commission, University Interchange, Continued education, Ethics, etc.

Priorities for 2019		
<p>Conclude with the modifications of the ISCP statutes in order to promote the inclusion of new professionals from the economic sciences who participate in the training events designed by the ISCP as part of the continuing education programs.</p> <p>Strengthen the dissemination and promotion of the ethical requirements issued by IFAC, performing activities in order to strengthen the financial position of our Institution, including growing in different levels of associates. Another priority is to maintain constant communication with the affiliate boards so that they will be in line with our objectives, mission and institutional vision. This will allow you to give an adequate follow-up to the present plan.</p>		
Projects		
<p><i>The main projects to execute in this period 2019 are the following:</i></p> <ol style="list-style-type: none"> <i>1. The activities of adhesion of news members of the ISCP will be strengthened, and development activity for motivate the permanence of the existing ones as part of the membership. Some of the activities to be developed are</i> <ol style="list-style-type: none"> <i>b) Membership program in all Filial offices and office main starting from the participants to events</i> <i>c) Develop and disseminate direct benefits to members</i> <i>d) Improve communication through social networks</i> <i>e) Encourage participation to training events</i> <i>2. Annual continuous education programs - which includes continuous educational themes related to IFRS, ISAs, TAX and other materials, the contents of the programs are changed every quarter, with the aim of improving the abilities and expertise of the participants. This program will include continuing education activities for accountants in accordance with the modifications of the LREC</i> <i>3. Program for institutional transformation - which corresponds to the actualization of the ISCP statutes.</i> <i>4. Ethical culture program - which includes activities related to the changes of the Code of Ethics for Professional Accountants of the IFAC, with the aim of creating culture, by means of obtaining knowledge of threats and professional safeguards.</i> 		
Update IFAC Action Plan		
1.	Evaluate progress against Action Plan activities	Semi-Annually
2.	Update Action Plan	Annually

Action Plan Subject: SMO 1–Quality Assurance

Status as of Date of Publication

Action Plan Objective: System of Quality Assurance

Background:

The ISCP has no, direct, responsibility for establishing a system of quality control, as the law assigned this responsibility to the CVPCPA. Who implements the quality control program to all auditors accredited by the Supervisory Board (CVPCPA)

Based on the above, the ISCP has continued to utilize its best efforts to exhort the CVPCPA to follow the requirements established by DOM-1 in its Annual Quality Control Program (PAR), which documents the System of Quality Assurance (SQA). Furthermore, the ISCP will assist in the development of, and compliance with, the PAR, motivating its more experienced members to act as reviewers in the annual quality control program.

The PAR has been functioning since 2009; and that the firms have an SQA, and that a review of quality control exists for all audits of financial statements, audits of compliance with fiscal (audits) and other related services (RS), both in the case of the services provided to private and public entities. Starting from December, 2014 reviews of the quality control of related services has been included, such as the audit of compliance with the tax.

The quality review programs commence with the selection of the financial statements registered in the National Registration Center (CNR), where any of the auditors who have issued audit opinions, may be selected for review.

The ISCP uses the report relating to deficiencies, as the basis for the annual program for professional development (PDP).

On the basis of the above-mentioned activities carried out by the ISCP, the CVPCPA; it was concluded that the requirements established by the DOM-1, are being adequately complied with both at the level of organizational members and a jurisdictional level.

2018 Update

During 2018, the ISCP maintained permanent activities with the CVPCPA, assessing and advising in the PAC, disclosing the areas that were determined to be weak or insufficient by the public accountants engaged in the auditing and tax professions; and included in the DAC program themes aimed at strengthening the identified areas.

The representative of the ISCP in the CVPCPA, issued monthly reports to the Board of Directors of the ISCP, concerning all the relevant aspects reviewed by this regulatory entity, with the aim of providing feedback on the actions that should be taken to strengthen and safeguard the accounting professionals.

During 2018 in the ISCP web page, all of the communications and events related to accounting updates were stored, with the aim of strengthening the capacity of professional accountants, and constantly inviting them to participate in the programmed events, with the aim of assisting them to develop their abilities and expertise.

Through the presence of our representative we have continued to exercise significant influence in the decisions and actions of the CVPCPA regarding the annual program carried out by such regulatory organism. The member representing the ISCP reports to the Central Board of Directors (CBD) at least one a month. During 2018, topics related to quality control of professional service commitments were included in the continuing education programs.

Action Plan Subject: SMO 2–International Education Standards for Professional Accountants and Other Pronouncements Issued by the IAESB
Action Plan Objective: Continue with the IES requirements and insert it in the ongoing education program of the ISCP

Background:

The International Education Standards (IESs), the International Statements concerning Formation Practices (DIPF) and the informative documentation relating to formation (DIF), have been adopted as a reference point and are closely related to the adoption of the ISAs by the CVPCPA, starting from March 1, 2003, in accordance with resolution R01 / 0603/2003.

The ISCP constituted the University Exchange Commission, integrated by representatives from accounting schools and universities in El Salvador. This commission has been promoting the use of the IESs and the documentation related to theoretical and practical training in the universities. The ISCP has used the IESs as the basis for the design of its DPC program.

Starting in 2014, the representatives of the ISCP in the CVPCPA, have used their best efforts to increase the minimum continuous education requirements for public accountants to 40 hours per year, distributed in the following areas:

- IFRS-12 hours
- ISA-12 hours
- Ethics-4 hours
- Taxes-4 hours
- Mercantile and other laws-8 hours

Based on the above requirement, the ISCP designed, and developed, the annual PAC program.

The LREC establishes, in a similar way to other countries in the region, that main requirement to be accredited by a public accountant. It is faculty of the CVPCPA as national regulatory organism by law, and has the faculty to approve the professional accountants as certified public accountants in order to be able to exercise the audit function, by providing a registration number. If an individual wishes to practice as Professional Accountants in Public Practice and Professional Accountants in Business, they must achieve the title of CPA and be registered with the CVPCPA. The CVPCPA has established requirements for Continuing Professional Development (CPD) for all CPAs - as membership in the CVPCPA is mandatory for all CPAs, therefore CPD requirements are mandatory as well. Members are required to maintain and develop their competences by taking a minimum number of 40 hours of CPD per year provided by approved training institutions. Non-compliance with CPD may result in removal from the Accounting profession. ISCP has signed an agreement with the CVPCPA to allow it to undertake the provision of approved training courses for CPD credit

Although ISCP, does not maintain a certification examination, the organization has been undertaking strong efforts to correct this situation and align its educational activities of the organization with IAESB International Education Standards (IESs) .ISCP has been actively working to support the activities of the Board of Professional Associations of El Salvador (CAPES) in their efforts to change the current legislation of the country to allow professional associations (all including accounting and auditing) to require the passage of a certification examination in order to be considered a professional person. Presently, the requirement for passage of a certification examination is against the law. As such, the work of CAPES is an effort to finish such a requirement. In preparation for the next step - the development of a system of certification, ISCP has been communicating with IFAC member bodies in Brazil and Mexico to learn more about their systems of certification, obtaining information on the practice carried out in those regions, however at the date, the amended Regulatory Law, does not allow opting for this option.

2018 Update:

The UIC has held regular meetings during, providing a continuation of the themes related to the IESs, and have achieved the implementation of the contents of the IESs in the in the university programs; with the aim of improving the abilities and expertise of the public accountants in their formation.

Since 2015, the academic division of the ISCP considered the requirements of the IESs in the design of its DAC. Both the DAC and the UIC have used their best efforts to utilize the IESs as a reference point in the educational plans of the universities; specifically related to the IESs "Values, ethics and professional attitude."

During 2018 the ISCP managed to train more than 5,210 (4,500 last year) Professional Public Accountants and students.

The UIC held monthly meetings with academic representatives from the Universities in El Salvador, informing them about accounting updates, and the development of the XIX Annual Congress for public accounting and economic students in May 2018 achieving the participation of more than 1100students; the event treated themes relevant to accounting update. The presentations were presented by highly qualified international and national exhibitors.

Additionally, in September 2018, the first tax forum was held, promoting the discussion of tax issues with the participation of specialists in this area; The ISCP will hold the second tax forum in September 2019, in order to provide a scenario for discussion of this tax specialization

The ISCP has instituted a specific committee in order to follow the specific plans detailed below in order to comply with the requirements of the International Education Standards (IES); the committee name is CSMO-2 Education Standards Committee, The Board of Directors has given follow up to the curricula to comply with the requirements of the International Standards of Education (IES);. Some of the responsibilities of this committee are: a) to promote the continuous education of the public accountant, b) evaluation of the academic content and the quality of the teaching of the facilitators c) to support the academic direction in the continuing education programs

Action Plan Subject: SMO 3–International Standards and other Pronouncements Issued by the IAASB
Action Plan Objective: Use Best Endeavors to Improve Implementation of ISAs.

Background:

The representative of the ISCP in the CVPCPA had significant influence in the adoption of the ISAs, by means of resolution R02 / 09/1999 ratified by means of R11 / 12/2011, to use these standards as the technical reference in the audits of financial statements; furthermore the SSF requires by means of the Prudential Standard for Banks NPB2 -07, that in the audits of Banks, insurance companies, pension funds and other financial intermediaries, that the ISAs must be utilized. Additionally, resolution RCTG-1/2010 issued by the Superintendence of the Stock Exchange establishes the ISAs as the minimum requirement for the audits of the financial statements of entities listed on the stock exchange, based on IASs. It is in effect during 2018.

Starting from the year 2000, the ISCP has ensured that the CVPCPA is informed of the events related to the disclosure of significant changes in the ISAs.

The Diplomas for Accounting Updates (DAC) which have been developed since 2014, have permitted the updating of the knowledge of the public accountants with regard to new, proposed and revised accounting standards; ensuring that the professional accountants exercising the auditing profession, are fully updated; including the use of the Guide to Using International Standards on Auditing in the Audits of Small and the Guide to Practice Management for Small and Medium-Sized Practices was prepared by the Small and Medium Practices Committee of the International Federation of Accountants (IFAC). Furthermore, we have been coordinating, with the IASB Foundation, the purchase of current professional literature relating to the IFRS, in order to make this information available for the CPAs in El Salvador. **2017 Update**

The ISCP maintained an active participation in the CVPCPA to disclose, and adopt, the latest regulations issued and the latest declarations regarding the ISAs issued in Spanish, being the following; Handbook of international Quality control, auditing, review, other Assurance, and related services Pronouncements ,issued by IASSB, Spanish version 2013 edition, which includes:

- International Standards on Auditing (ISAs)
- International Standards on Related Services (ISRSs)

The annual professional development program implemented by the ISCP includes a content of training and updating of the different ISAs related to the audit process of the financial statements.

The ISCP expects to form again in the second quarter of 2019 the new members of the Comision de Normas Profesionales, defining their responsibilities and objectives

Action Plan Subject: SMO 4–IESBA Code of Ethics for Professional Accountants
Action Plan Objective: Update the Code of Ethics to Current IESBA Code of Ethics

Background:

By means of resolution R3630 / 2015, the CVPCPA resolved the use of the Code of Ethics for Professional Accountants issued (IES) by the IESBA (2014 Spanish Version) . The ISCP has signed agreements with the CVPCPA and the universities in El Salvador, to establish mechanisms to promote the level of knowledge over the contents of the IES and to create an ethical culture. The use of the Code of Ethics in force is applicable to all accounting professionals in El Salvador, according to the resolutions issued by the CVPCPA.

In November 2017, the decision of the CVPCPA to issue a new local code of ethics was made known, for which in December 2017, the ISCP ruled in disagreement with this decision, making available to the CVPCPA the financial support to use of the IFAC code of ethics a new local ethics code became effective as of January 30, 2018. In January 2019, the ISCP requested the CVPCPA to evaluate the installation of the Ethics Code issued in its Spanish version by IFAC for the professional performance of public accountants in El Salvador and to repeal the local Code of Ethics implemented by the previous Supervisory Board. The CVPCPA has authorized to return to the use of the IFAC Code of Ethics in 2019

The ISCP sends its members regular communications of new pronouncements issued by IFAC related Code of Ethics by IFAC

2018 Update

During 2018, the ISCP was permanently disseminating clauses related to ethics in all of its training courses and events, with the aim of promoting an ethical culture and, furthermore, included a module related to knowledge about the ethics code for professional accountants, by means of the diploma for accounting update (DAC), which was developed throughout the year. The ISCP obtained knowledge of the cases of noncompliance with ethical requirements identified by the CVPCPA and the corrective actions taken by this regulatory body to place emphasis on the need for full compliance with the code, by its associate members. The plan of action for this cycle is aimed at maintaining the members informed of the terms of the Code of Ethics, and is able to achieve an annual survey that confirms its compliance.

The ISCP informed its members that it would continue to report on the pronouncements issued by IFAC, and also to include in its training program the requirements established by the IFAC Code of Ethics.

To develop some activities there is the Ethics Commission (CSMO4) that has the following responsibilities:

- a) Publish and promote the culture of compliance with the ethical values of the public accounting profession, contained in the Code of Ethics promulgated by IFAC.
- b) Develop a program on the knowledge and application of the ethical values of the profession for the members of the Institute
- c) Evaluate and recommend to the Board of Directors of the Institute about faults to the Code of Ethics coming from the partners or actions of organizations that have signed agreements with the Institute.

Action Plan Subject: SMO 5—International Public Sector Accounting Standards and Other Pronouncements Issued by the IPSASB
Action Plan Objective: Raise Awareness of IPSAS with Government Counterparts

Background:					
<p>The ISCP has no direct responsibility in the area relating to the IPSAS; in this sense the ISCP has utilized its best efforts to exhort the GOES to comply with the requirements of the DOM-5; furthermore, on previous years activities have been performed to assist with the implementation of the IPSAS in El Salvador.</p> <p>During 2018, the GOES continued with the Macro Project with the technical and financial assistance of the US-AID. One of the two components of this Macro Project included the reformulating of the general accounts chart of the GOES, which will be in conformity with the IPSAS; the necessary changes were made to the information systems, and instruction manuals were created together with the necessary interfaces between the financial accounting system and the financial administration system of the GOES.</p> <p>2018 Update</p> <p>During 2018, the ISCP was monitoring the activities of the GOES aimed at the adoption, and use of the IPSAS. The GOES estimate that the adoption process has an advance moderate and it is hoped that the process will be concluded by 2024.</p> <p>The ISCP will follow-up through its board of directors on GOES activities related to the progress of IPSAS implementation and determine close communication with government officials in charge of the implementation project</p>

Action Plan Subject: SMO 6–Investigation and Discipline
Action Plan Objective: Strengthening of Investigation and Disciplinary (I&D) Processes

Background:

The process of investigation and discipline is the responsibility of the CVPCPA, in such a manner that the ISCP does not have direct responsibility; consequently, the efforts of the ISCP are aimed at applying its best efforts to exhort the CVPCPA to comply with the requirements of DOM-6.

EL CVPCPA conducts its work proactively through control procedures, and also attends complaint procedures. The cases under investigation can lead to punishable offences which are classified in professional ethics misconduct and other failures. Professional ethical faults are acknowledged and judged by an Ethics Tribunal, other faults are elevated to Board of Directors of CVPCPA. For all cases the sanctioning body is the Board of Directors who will determine the type of sanction, either to be a pecuniary fine, temporary suspension of the exercise of the profession or expulsion.

2018 Update:

During last year, the ISCP through the representative in the CVPCPA, was maintained informed of the level of demands that the authorized public accountants had received from the general public. Commenting on the actions taken by the CVPCPA.

The ISCP implements, through its ethics commission, the disclosures of compliance with the ethical requirements for its members, and also through the training programs it conducts annually.

The ISCP has maintained a monitoring of the disclosing topics on discipline determined by the CVPCPA and commented on in the meetings of the Board of Directors.

Additionally, an investigation and discipline function for the existing Ethics Commission will be included in the modification of the statutes of the ISCP.

Main Requirements of SMO 6

Requirements	Y	N	Partially	Comments
<p>Scope of the System</p> <p>1. A system of investigation, discipline and appeals exists for the accountancy profession. The system is operational.</p>	X			The only body sanctioning public accounting professionals is the CVPCPA, which has a research committee and, in accordance with the latest amendment to the LRCP, minor, serious and very serious offenses are determined which, in turn, have their corresponding sanctions. It is established from a written penalty, economic penalty and suspension of the professional.
<p>2. Information about the types of misconduct which may bring about investigative actions is publicly available.</p>		X		
<p>Initiation of Proceedings</p> <p>3. Both a “complaints-based” and an “information-based” approach are adopted.</p>	X			
<p>4. Link with the results of QA reviews has been established.</p>		X		
<p>Investigative Process</p> <p>5. A committee or similar body exists for performing investigations.</p>	X			See numeral 1
<p>6. Members of a committee are independent of the subject of the investigation and other related parties.</p>	X			
<p>Disciplinary Process</p> <p>7. A separate disciplinary committee/entity exists to make disciplinary decisions on referrals from the investigation committee.</p>	X			
<p>8. Members of the committee/entity include professional accountants as well as non-accountants.</p>		X		

Requirements	Y	N	Partially	Comments
9. The tribunal exhibits independence of the subject of the investigation and other related parties.	X			
Sanctions 10. The disciplinary system allows imposing an extensive range of penalties. It is particularly important to include (a) loss of professional designation; (b) restriction and removal of practicing rights; and (c) exclusion from membership.	X			The only body sanctioning public accounting professionals is the CVPCPA, which has a research committee and, in accordance with the latest amendment to the LRCP, minor, serious and very serious offenses are determined which, in turn, have their corresponding sanctions. It is established from a written penalty, economic penalty and suspension of the professional.
Rights of Representation and Appeal 11. A third appeals body exists which is separate from both the disciplinary committee and investigative committee.		X		
Administrative Processes 12. Timeframe targets for disposal of all cases are set.	X			
13. Tracking mechanisms to monitor progress in investigation and discipline and related procedures are established.	X			
14. Records of investigations and disciplinary processes are established.	X			
Public Interest Considerations 15. Activities are supported to ensure that the public is aware that an investigative and disciplinary system exists in the jurisdiction.			X	
16. A process for the independent review of complaints on which there was no follow-up established.				

Requirements	Y	N	Partially	Comments
17. The results of the investigative and disciplinary proceedings are made available to the public.		X		
Liaison with Outside Bodies 18. There is an appropriate process for liaison with outside bodies on possible involvement in serious crimes and offences.	X			The same law establishes the obligation to send cases that have a criminal incidence to Fiscalía General de la Republica
Regular Review of Implementation and Effectiveness 19. Regular review of implementation and effectiveness of the system are performed and corrective actions are implemented.	X			

Action Plan Subject: SMO 7–International Financial Reporting Standards and Other Pronouncements issued by the IASB
Action Plan Objective: Enhance Implementation of IFRS

Background:

The work of the ISCP in coordination with the CVPCPA, finally, permitted the adoption during 2009 of the IFRS Full and the IFRS for PYMES , by means of resolution R133/2009, to be used as the official accounting basis starting in the financial statements for 2011.

The process of implementation of IFRS and IFRS for SMEs in El Salvador was successful and in development. The ISCP, with the (BID /FOMIN) project achieved the training of 44 instructors and the respective replication of this knowledge in the different modules that make up the certification program.

The process of implementation of standards at a national level has been successful and effective since its implementation is mandatory according to the Law.

In 2018 we have:

Universities are already implementing the contents of IFRS in their study programs

The financial system by following its own regulations for the preparation and presentation of the financial statements of financial entities, however, allows the matters not contemplated in its regulation to be consulted the requirements of IFRS.

The ISCP, for its part, includes current IFRS topics in its professional development program. Since 2011, the ISCP has developed Diplomas for Accounting Actualizations (DAC), in which the members, and other interested parties, are informed over new, proposed and revised international standards, this ensures that the professional public accountants are maintained actualized on new developments; furthermore, we have been coordinating, with the Mexican Institute of Public Accountants (IMCP), the purchase of actualized professional literature relating to the IFRS, in order to make this information available for the CPAs in El Salvador.

The ISCP has actively participated in the translation of the IAASB, representative as a member of the IberAm Project.

The ISCP developed diplomas in for the IFRS for SMEs during the last years; for both improving abilities and expertise in the Standard, and also for promoting interest in obtaining the Inter-American Certificate over the NIIF for PYMES, which is authorized by the Inter-American Accounting Association (AIC).

The ISCP participated in the annual survey relating to a comprehensive review of the IFRS for PYMES, holding a national event, which had the objective of obtaining comments and input to support the answers to be presented to the IAASB.

2016 Update:

In 2016, the work of the ISCP representative in the CVPCPA, through Resolution R11 / 2016 dated July 7, 2016, allowed the adoption of the revised NIIF for PYMES in 2015 in its Spanish version, In 2016 the ISCP, developed, during the whole year, a Diploma in Accounting Actualizations (DAC), which included the training of more than 5,000 accounting professionals, dealing with themes of technical excellence in the full IFRS and the IFRS for SMEs. Furthermore, courses were developed for the preparation of professionals for the CICNP certification, which is issued by the AIC; at present, in El Salvador there are 6 professionals who possess this international certification.

<p>During this cycle, the function of ISCP is directed to perform work towards two main vertical areas (Strengthening of abilities and capacities and Disclosure), and two horizontal areas (Ethics and Quality Control). The activities that define these cornerstones were raised in a manner to meet the goals of the Institution, as well as each of the 7 SMOs.</p> <p>The ISCP has instituted a separate Committee to follow up on specific plans detailed below, in order to meet the requirements of international financial reporting standards; that Committee is the "Professional Standards Committee CSMO-7."</p>

El Salvador, August 12, 2019

Joseph Bryson
Director, Quality & Development
International Federation of Accountants
Phone: +1(212)471-8710
Email: DariaKoukhar@ifac.org

Dear Mr. Bryson,

Subject: Letter to Confirm Institutional Support for the SMO Action Plan

This letter is to confirm that the leadership of Salvadoran Institute of Certified Public Accountants (ISCP) has reviewed the information contained in the SMO Action Plan prepared by ISCP as part of the IFAC Member Compliance Program and will provide institutional support for its implementation.

On behalf of the leadership of the ISCP, I endorse publication of the SMO Action Plan on the IFAC website in the interests of transparency and to demonstrate our commitment to enhancing the quality and credibility of the accountancy profession worldwide.

Sincerely,

Carlos Nicolás Fernández Linares,
President
Salvadoran Institute of Certified Public Accountants (ISCP)
August 12, 2019
