

**CONFORMING AND CONSEQUENTIAL AMENDMENTS TO THE OTHER IAASB
STANDARDS ARISING FROM THE QUALITY MANAGEMENT STANDARDS****NOTE**

- The changes proposed to the text of the exposure draft are shown in **yellow highlight** and are explained in the supplement to Agenda Item 2.
- The conforming amendments have been categorized as follows:
 - Category 1: Update links to the structure and concepts in ISQM 1 and ISQM 2, such as new or revised definitions. When necessary and appropriate (e.g., when wording was previously aligned with ISA 220¹), analogous wording in ISA 220 (Revised) is taken into consideration.
 - Category 2: Update references and other terminology in ISQC 1 to align with ISQM 1 and ISQM 2.
- No amendments have been proposed to ISRE 2410.² ISRE 2410 is in a pre-Clarity format and for this reason has not be subject to conforming amendments in recent years to avoid giving the impression that it is up to date. ISRE 2410 contains only one high level reference to quality control.³

¹ ISA 220, *Quality Control for an Audit of Financial Statements*

² International Standard on Review Engagements (ISRE) 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*

³ ISRE 2410, paragraph 5 “**The auditor should implement quality control procedures that are applicable to the individual engagement.** The elements of quality control that are relevant to an individual engagement include leadership responsibilities for quality on the engagement, ethical requirements, acceptance and continuance of client relationships and specific engagements, assignment of engagement teams, engagement performance, and monitoring.”
