

Relevant Paragraphs from the Revisions to the Definitions of Listed Entity and PIE in the IESBA Code

This Agenda Item includes an extract from the relevant drafting paragraphs for Track 2 of the narrow scope maintenance project on listed entity and PIE included in IESBA's Final Pronouncement: [Revisions to Definitions of Listed Entity and Public Interest Entity in the Code](#).

PART 4A – INDEPENDENCE FOR AUDIT AND REVIEW ENGAGEMENTS

SECTION 400

APPLYING THE CONCEPTUAL FRAMEWORK TO INDEPENDENCE FOR AUDIT AND REVIEW ENGAGEMENTS

Introduction

General

...

Public Interest Entities

- 400.8 Some of the requirements and application material set out in this Part are applicable only to the audit of financial statements of public interest entities, reflecting significant public interest in the financial condition of these entities due to the potential impact of their financial well-being on stakeholders.
- 400.9 Factors to consider in evaluating the extent of public interest in the financial condition of an entity include:
- The nature of the business or activities, such as taking on financial obligations to the public as part of the entity's primary business.
 - Whether the entity is subject to regulatory supervision designed to provide confidence that the entity will meet its financial obligations.
 - Size of the entity.
 - The importance of the entity to the sector in which it operates including how easily replaceable it is in the event of financial failure.
 - Number and nature of stakeholders including investors, customers, creditors and employees.
 - The potential systemic impact on other sectors and the economy as a whole in the event of financial failure of the entity.
- 400.10 Stakeholders have heightened expectations regarding the independence of a firm performing an audit engagement for a public interest entity because of the significance of the public interest in the financial condition of the entity. The purpose of the requirements and application material for public interest entities as described in paragraph 400.8 is to

meet these expectations, thereby enhancing stakeholders' confidence in the entity's financial statements that can be used when assessing the entity's financial condition.

...

Public Interest Entities

R400.17 For the purposes of this Part, a firm shall treat an entity as a public interest entity when it falls within any of the following categories:

- (a) A publicly traded entity;
- (b) An entity one of whose main functions is to take deposits from the public;
- (c) An entity one of whose main functions is to provide insurance to the public; or
- (d) An entity specified as such by law, regulation or professional standards to meet the purpose described in paragraph 400.10.

400.17 A1 When terms other than public interest entity are applied to entities by law, regulation or professional standards to meet the purpose described in paragraph 400.10, such terms are regarded as equivalent terms. However, if law, regulation or professional standards designate entities as "public interest entities" for reasons unrelated to the purpose described in paragraph 400.10, that designation does not necessarily mean that such entities are public interest entities for the purposes of the Code.

R400.18 In complying with the requirement in paragraph R400.17, a firm shall take into account more explicit definitions established by law, regulation or professional standards for the categories set out in paragraph R400.17 (a) to (c).

400.18 A1 The categories set out in paragraph R400.17 (a) to (c) are broadly defined and no recognition is given to any size or other factors that can be relevant in a specific jurisdiction. The Code therefore provides for those bodies responsible for setting ethics standards for professional accountants to more explicitly define these categories by, for example:

- Making reference to specific public markets for trading securities.
- Making reference to the local law or regulation defining banks or insurance companies.
- Incorporating exemptions for specific types of entities, such as an entity with mutual ownership.
- Setting size criteria for certain types of entities.

400.18 A2 Paragraph R400.17 (d) anticipates that those bodies responsible for setting ethics standards for professional accountants will add categories of public interest entities to meet the purpose described in paragraph 400.10, taking into account factors such as those set out in paragraph 400.9. Depending on the facts and circumstances in a specific jurisdiction, such categories could include:

- Pension funds.
- Collective investment vehicles.
- Private entities with large numbers of stakeholders (other than investors).

- Not-for-profit organizations or governmental entities.
- Public utilities.

400.19 A1 A firm is encouraged to determine whether to treat other entities as public interest entities for the purposes of this Part. When making this determination, the firm might consider the factors set out in paragraph 400.9 as well as the following factors:

- Whether the entity is likely to become a public interest entity in the near future.
- Whether in similar circumstances, a predecessor firm has applied independence requirements for public interest entities to the entity.
- Whether in similar circumstances, the firm has applied independence requirements for public interest entities to other entities.
- Whether the entity has been specified as not being a public interest entity by law, regulation or professional standards.
- Whether the entity or other stakeholders requested the firm to apply independence requirements for public interest entities to the entity and, if so, whether there are any reasons for not meeting this request.
- The entity's corporate governance arrangements, for example, whether those charged with governance are distinct from the owners or management.

...

GLOSSARY, INCLUDING LISTS OF ABBREVIATIONS

...

Public interest entity For the purposes of Part 4A, an entity is a public interest entity when it falls within any of the following categories:

- (a) A publicly traded entity;
- (b) An entity one of whose main functions is to take deposits from the public;
- (c) An entity one of whose main functions is to provide insurance to the public; or
- (d) An entity specified as such by law, regulation or professional standards to meet the purpose described in paragraph 400.10.

The Code provides for the categories to be more explicitly defined or added to as described in paragraphs 400.18 A1 and 400.18 A2.

Publicly traded entity An entity that issues financial instruments that are transferrable and traded through a publicly accessible market mechanism, including through listing on a stock exchange.

A listed entity as defined by relevant securities law or regulation is an example of a publicly traded entity.
