PRICING ON PURPOSE: HOW TO IMPLEMENT VALUE PRICING IN YOUR FIRM, PART III

Ronald J. Baker, Founder, VeraSage Institute

If all patients were the same, medicine would be a science, not an art.
—Sir William Osler, one of the fathers of modern medicine

The Eight Steps Required for Pricing on Purpose

Step 1
Have a conversation with your customer to determine their needs and wants in the forthcoming year. Ask them the questions in Exhibit 1. This is your opportunity to comprehend and communicate the value you can add, establishing the scope of value and then the scope of the work to be performed. Sometimes a member from the Value Council attends this meeting, especially if the partner is not a member of the Council, or is uncomfortable with pricing.

Step 2
The information gleaned from Step 1 is then presented to the Value Council, where three options, at three levels of service, are established. Think of American Express’ different card offerings, e.g., Green, Gold, and Platinum cards. Each is offered at a different price based upon the value and services it delivers. Firms should offer customers options, not a take-it-or-leave-it single price. This allows the customer to convince herself of value, while revealing her individual price sensitivity. It also changes the mindset of the customer from “Should I work with this firm?” to “How should I work with this firm?” This is a powerful change in attitude that differentiates your firm from the competition.

Step 3
The Value Council then goes through the 20 questions to ask before establishing a price (Exhibit 2). Based upon the answers, the council then conjectures three internal prices for each level of service, based upon their assessment of the customer’s subjective value and price sensitivity.

1. **Reservation Price**—below this price, the firm would turn down the work. It must get this price. It will generate a normal profit.

2. **Hopefor Price**—a firm should get this price more often than not. It will generate a supernormal profit.

3. **Pump Fist Price**—this is an aspirational price, when the firm is adding extraordinary value. It will generate a windfall profit.
Many firms use the following nine-box model:

<table>
<thead>
<tr>
<th>Reservation</th>
<th>Hope for</th>
<th>Pump Fist</th>
</tr>
</thead>
<tbody>
<tr>
<td>Platinum</td>
<td>$C</td>
<td>$B</td>
</tr>
<tr>
<td>Gold</td>
<td>$N</td>
<td>$M</td>
</tr>
<tr>
<td>Green</td>
<td>$Z</td>
<td>$Y</td>
</tr>
</tbody>
</table>

From this brainstorming session, the Value Council then determines at which price the three options will be presented (obviously, not all nine prices are presented to the customer). The upper bound of these prices should be based upon the value being created, yet all will be lower than that value so as to ensure the customer also earns a profit.

For example, if you know the customer is highly price sensitive, you may only present the reservation price for all three options. However, if there are some services that are adding high marginal value, a hope for price may be quoted for the Gold and Platinum levels. If extraordinary value is being created, quote the pump fist price.

This is where the art of pricing comes into play. It requires judgment, and the more the Value Council does it, the better they will get, since pricing is also a skill.

Firms that use this model report that it makes them “compete with themselves.” To receive a pump fist price, the firm must conjure up ways to add extraordinary value. This is a worthwhile thought experiment, as the focus is on value, not time.

Many people ask, how can you ascertain value since it's subjective and there's no formula? The answer is with a deep understanding of your customer’s value drivers, which requires a deep conversation with the customer. One way to never get to value is to continue to think and price based upon hours.

**Step 4**

Present the options to the customer. Sometimes, a member of the Value Council would attend this presentation, especially if the partner in charge is not a member of the council, or is uncomfortable discussing price.

**Step 5**

The option selected by the customer is then codified into a Fixed Price Agreement (FPA), such as the one in Exhibit 3. The firm can include as much detail as required as to the scope of work, customer responsibility to provide information, timelines for delivery of work, etc. Exhibit 4 explains each section of the FPA and the pricing principles it incorporates.

**Step 6**

The firm would perform adequate project management on the scope of work, detailing who will perform the work, timelines for delivery to customer, and other planning details. See “Project Management for Accountants,” by Ed Kless from the Journal of Accountancy (April 2010).
Step 7

If the firm finds scope creep while performing the work, the customer is informed, given the option of how to proceed, and a Change Order will be issued if the firm is to perform any additional work. This policy also applies to any new services the firm provides within the year not specified in the FPA. Exhibit 5 contains a sample Change Order.

Step 8

Since 1973, the U.S. Army has had a policy of doing After Action Reviews (AAR), which take place after every mission. After assisting many firms in implementing AARs, we are convinced it is a practice that would have numerous salutary effects for firms, especially as it relates to the roles of the CVO and Value Council, helping them evolve pricing into a core competency. For a sample After Action Review the Value Council would perform after the value-priced engagement has been completed, see Exhibit 6.

Do not skip any of these steps—all are necessary for developing a core competency in pricing. If these eight steps are followed on every major engagement, is there any doubt the firm will begin its journey to pricing on purpose?

Not Final Thoughts

No firm will ever be paid more than it thinks it is worth. There is nobility in earning what you are worth. Yet if a firm’s leaders do not think it creates more value for its customers than is reflected by hourly billing, how can customers be expected to understand a value proposition beyond hourly rates?

Hourly billing is, to borrow a medical term, an iatrogenic illness—a disease induced inadvertently by a physician while providing treatment. This model is perpetuated because it is risk-adverse and simplistic, and the theory supporting it has been taught for multiple generations.

Yet hourly billing is nothing but a tradition. We will not be able to adopt Value Pricing if we continue to denominate everything into hours, thus remaining mired in the mentality that accountants sell time.

It is past time to change your conversations with customers from hours to value. Do this up front, before you begin any work. Appoint a CVO and establish a Value Council in your firm—a group of intellectually curious leaders who will become, over time, experts in creating and capturing value. Your firm will become obsessed with value. Your customers will appreciate it, and they will not bother asking about hours. I guarantee it.

Let us, together, forge a new manifesto, and once and for all, free our profession from the tyranny of time. It is time to bury the billable hour and price on purpose. Will your firm be among the pioneers blazing the trail for others?

Exhibit 3: Sample Fixed Price Agreement

November 19, 2014

Dear Customer:

In order to document the understanding between us as to the scope of the work that ABC, CPAs will perform, we are entering into this Fixed Price Agreement with XYZ, Inc. To avoid any misunderstandings, this Agreement defines the services we will perform for you as well as your responsibilities under this Agreement.

2015 PROFESSIONAL SERVICES

ABC will perform the following services for XYZ during 2015:

- 2014 XYZ Corporation Tax Returns
- 2014 Financial Statement Review with financial statements to be provided by XYZ by March 15, 2015
- 2015 Tax Planning
- Unlimited Access in 2015*

TOTAL 2015 PROFESSIONAL SERVICES $XXX

*Unlimited Access includes the following services to be provided by ABC to XYZ:

- Unlimited meetings, to discuss operations of XYZ, business matters, tax matters, and any other topic at the discretion of XYZ or its employees and/or agents.
- Unlimited phone support for XYZ personnel and/or independent contractors and agents regarding accounting assistance, tax issues, etc.

Because our Fixed Price Agreement provides ongoing access to the accounting, tax, and business advice you need on a fixed-price basis, you are not inhibited from seeking timely advice by the fear of a meter running endlessly. Our service is built around fixed pricing, as opposed to hourly rates, and offers you access to the accumulated wisdom of the firm through professionals with substantial experience, who can help enhance your company’s future and achieve its business objectives.

While the fixed price entitles your company to unlimited consultation with us, if your question or issue requires additional research and analysis beyond the consultation, that work will be subject to an additional price, payment terms, and scope to be agreed upon before the service is to be performed, and a Change Order will be issued to document this understanding.

Unanticipated Services

Furthermore, the parties agree that if an unanticipated need arises (such as, but not limited to, an audit by a taxing agency, a financial statement audit or compilation required as part of a lender financing agreement, or any other exogenous service not anticipated in this agreement by the parties) that ABC hereby agrees to perform this additional work at a mutually agreed-upon price. This service will be invoiced separately to XYZ utilizing a Change Order.
Service Guarantee

Our work is guaranteed to the complete delight of the customer. If you are not completely satisfied with the services performed by ABC, we will, at the option of XYZ, either refund the price, or accept a portion of said price that reflects XYZ's level of value received. Upon final payment of your invoice, we will judge you have been satisfied.

Price Guarantee

Furthermore, if you ever receive an invoice without first authorizing the service, payment terms, and price, you are not obligated to pay for that service.

Payment Terms

The following payment terms are hereby agreed to between XYZ and ABC:

January 31, 2015 $XX
February 28, 2015 $XX
March 31, 2015 $XX
April 30, 2015 $XX
May 31, 2015 $XX
June 30, 2015 $XX
July 31, 2005 $XX
August 31, 2015 $XX
September 30, 2015 $XX
October 31, 2015 $XX
November 30, 2015 $XX
December 31, 2015 $XX

TOTAL 2015 PAYMENTS $XXX

To ensure that our arrangement remains responsive to your needs, as well as fair to both parties, we will meet throughout 2015 and, if necessary, revise or adjust the scope of the services to be provided and/or the prices to be charged in light of mutual experience.

Furthermore, it is understood that either party may terminate this Agreement at any time, for any reason, within 10 days of written notice to the other party. It is understood that any unpaid services that are outstanding at the date of termination are to be paid in full within 10 days from the date of termination.

If you agree that the above adequately sets forth XYZ's understanding of our mutual responsibilities, please authorize this Agreement and return it to our office. A copy is provided for your records.

We would like to take this opportunity to express our appreciation for the opportunity to serve you.
Very Truly Yours,

Customer, President, XYZ, Inc.
Exhibit 4: Explaining the Sample Fixed Price Agreement

Date of the Fixed Price Agreement (FPA)

The FPA can be either for a calendar or fiscal year, depending on the customer. You may want to stagger your FPAs so the firm will not be rushed to draft new FPAs within one particular time of the year. I have seen multiple year FPAs, as well as Perpetual FPAs that cover all the compliance work for the customer, leaving a second FPA to outline those services that change from year to year.

Professional Services Provided

Obviously, you will describe each service to be provided by your firm, and you may provide additional scope detail to the degree necessary to have no misunderstandings between you and the customer. This requires professional judgment. For example, with the audit service in the sample FPA you are specifying the customer provide PBC schedules by March 15, 2015. If the customer does not deliver by this date, the scope of the audit changes, and a Change Order should be issued.

Unlimited Access

This service is included in the bundled price to the customer and will break down the communication barrier that may arise if you charge for each meeting and phone call. The more you talk with a customer throughout the year, the better able you will be to provide additional value, especially before the customer enters into various transactions.

Do customers abuse this service? Overwhelmingly, the answer is no. Any customer who enters into an FPA with your firm is usually an “A” or “B” customer, and a high level of mutual trust, respect, and understanding already exists. If they do need to call you at home on Saturday evening at 11:00 p.m., it is usually for a very good reason (a death in the family, accident, etc.), and you want to talk to them. Any additional work that results from these contacts is priced separately, utilizing a Change Order. Also, if a customer did contact your firm excessively, you are obviously adding value, and can readjust your price accordingly for this access. If they are abusive, or unwilling to pay for your value, you should terminate them.

Unanticipated Services

This clause offers many advantages. By specifying the services that you are aware of at the time of drafting the FPA, you are leaving many opportunities for providing additional services, and because customers are paying you for unlimited access, they are more likely to select you to provide those additional services, thereby effectively locking out the competition. Another advantage is, by their nature, Change Orders deal with marginal services that the customer wants, rather than what the customer needs (because the FPA has taken care of their basic compliance needs), and can command premium prices.

Service Guarantee

This policy reduces the risk to the customer of working with your firm, as well as justifying a premium price. Why should the customer bet on your firm if you won’t? A service that is guaranteed is worth more than one that is not, so this clause will allow the firm to command a premium price over the competition.
Price Guarantee

This clause ensures that your firm sets the price when you have the leverage, which is before the engagement begins. A service needed is always worth more than a service that has been delivered. If there is no customer signed FPA or Change Order, no work will be performed—period! This will inculcate the “no surprises” culture within your firm, something customers will value highly, providing an excellent competitive differentiation, and another opportunity for premium pricing.

Payment Terms

The sample FPA shows 12 monthly payments, but this clause can be designed for quarterly payments, semiannual payments, or with a deposit made upon signing the FPA. For personal tax returns, many firms require payment up-front or upon delivery at the latest.

One value-added idea for business customers is to offer the customer the ability to structure the payment terms around their cyclical cash flow rather than the firm’s workflow (who knows this cycle better than their accountant?). Since the customer has input into these terms, it will negate payment resistance.

Revisions to the FPA

This is a good clause to add, especially for new customers, since it reduces the risk the customer is taking. It also ensures the firm will remain in communication with the customer and continuously solicit feedback on their level of satisfaction.

Termination Clause

This clause also reduces risk for the customer, lowering the chances of buyer’s remorse. By utilizing bundling and offering just one price for all the services in the FPA, the question arises about what to do if the customer terminates the relationship before all the services are performed. In that case, you will simply have to agree upon the value compared to the payments made, and one party will owe the other. The customer already has the option of paying whatever they believed the value to be due to the Service Guarantee, so don’t let this detail prevent you from bundling your services into one price.

The Words You Should Use

The word price is a better word than fee, since it conjures up no negative feelings, as is invoice rather than bill. The word agreement is preferable to the word contract, which conjures up images of disputes, lack of trust, courts, and lawsuits, while agreement has a much more positive connotation to the customer. The word authorize is preferable to sign for the same reasons, and puts the customer in control.
Exhibit 5: Sample Change Order

Customer:

Date:

Project Description and scope of services [and estimated completion date, if appropriate]:

________________________________________________________________________

________________________________________________________________________

Price: $_____________

We believe it is our responsibility to exceed your expectations. This Change Order is being prepared because the above project was not anticipated in our original Fixed Price Agreement, dated xx/xx/xx. The price for the above project has been mutually agreed upon by XYZ, and ABC, CPAs. It is our goal to ensure that XYZ is never surprised by the price for any ABC service, and therefore we have adopted the Change Order Policy. The price above is due and payable upon completion of the project described [or, payable up-front, if agreed upon, or in installments, etc., whatever you and the customer agree to].

If you agree with the above project description and the price, please authorize and date the Change Order below. A copy is enclosed for your records. Thank you for letting us serve you.

Sincerely,

Exhibit 6: After Action Review
*(to be completed by the Value Council/CVO after each major engagement)*

1. Did we add value for this customer?
2. How could we have added more value? Did we create unexpected value?
3. Did we capture value?
4. Could we have captured more value through a higher price?
5. If we were doing this type of FPA again how would we do it?
6. What are the implications for product/service design?
7. Should we communicate the lessons from this FPA to our colleagues and how?
8. How could we have enhanced our customer’s perception of value?
9. What did we teach this customer?
10. What other needs does this customer have and are we addressing them?
11. Did this FPA enhance our relationship with this customer?
12. What impact has this FPA had on developing our customer’s trust in us?
13. How would you rate our customer’s price sensitivity before and after this job?
14. How has this FPA advanced us?
15. Did we have the right team on this FPA?
16. How high were the costs to serve?
17. What could we do better next time?
18. Do we need to update our customer complaint register?
19. How could we thank this customer for their business?
