8. SECTION IV - QUESTIONS FOR RESPONDENTS ABOUT THE IAASB'S STRATEGY FOR 2020-2023

7. 1. In your view, will the strategic environment affecting the needs of the IAASB's stakeholders look like in 2020 onward and what will be the impact on the IAASB's International Standards (for example, will the audit market change significantly; will other services dominate stakeholders needs – including what the needs may be for different types of evolving services; how evolving technologies, such as cryptocurrency, artificial intelligence or blockchain, will impact the environment in which the IAASB's stakeholders operate, etc.).

Environnement hautement régulé, de plus en plus digitalisé avec une abolition des frontières augmentant les risques de manière systémique.

Il pourrait en résulter une inadéquation des normes si celles-ci ne sont pas mises à jour et cet impact devrait être plus accentué pour l'audit des PME/PMI dont certains évoluent dans un environnement hétéroclite mais en digitalisation rapide.

1. 8. 2. Section II. Describes the additional challenges and opportunities that the IAASB has identified relating to its people, processes and technology, including possible changes that may arise from the MG consultation. In your view, as the IAASB develops its Strategy for 2020–2023, what are the:

(a) Key challenges and other factors that may impact the IAASB's activities and focus; and (b)

(b) Main opportunities for changing the way it undertakes its activities.

Your response may include views about the matters identified by the IAASB as set out in Section III, but any views about matters that have not been mentioned are particularly welcome.

1. La consultation du GS;
2. L'intrusion de plus en plus forte des régulateurs dans la normalisation de la profession;
3. La dématérialisation de l'économie mondiale y compris l'environnement des PME/PMI
4. L'apparition des nouvelles technologies telles que AI, blockchain, cloud etc.

9. 3. Are there specific initiatives within the stakeholder group to which you belong, or of which you are aware, that you believe the IAASB should actively monitor in light of their potential to inform the IAASB's future agenda? If so, what are they, and why do you think they are relevant to the IAASB?

Non

9. THE FOCUS OF THE IAASB'S ACTIVITIES IN 2020–2023

10. 4. Section II illustrates that the IAASB has, and will continue to, focus a significant part of its efforts in 2015–2019 on revising and developing standards addressing the audit of historical financial information and quality control. With respect to new standard-setting projects for the period 2020–2023, in light of where you believe IAASB actions are needed and to continue to serve the public interest, in your view what proportion of effort should the IAASB allocate to each of the following? (Allocation should total

100%)

Quality control : 25%

Audits and reviews of historical financial information : 15%

Other assurance- EER Emerging Forms of External Reporting (EER) refers to emerging forms of external reporting by entities that increasingly provide non-financial information that goes beyond the traditional (financial statement) focus on the entity's financial position, financial; performance and impact on its financial resources. engagements : 5%

Other assurance (and related services Related services pronouncements include: ISRS 4400, Engagements to Perform Agreed-Upon Procedures Regarding Financial Information (currently being revised); ISRS 4410 (Revised), Compilation Engagements.) - other than EER engagements : 5%

Professional skepticism : 40%

Matters relating to audits of smaller and less complex entities : 10%

Total : 100%

Comments:

11. Please provide relative %; for each option by category to total 100%

	(i) Developing new or revised standards	(ii) Undertaking implementation activities	(iii) Apply efforts to both
Quality control	35%	60%	5%
Audits and reviews of historical financial information	40%	55%	5%
Other assurance – EER engagements	45%	45%	10%
Other assurance (other than EER engagements) and related services Related services pronouncements include: ISRS 4400, Engagements to Perform Agreed-Upon Procedures Regarding Financial Information (currently being revised); ISRS 4410 (Revised), Compilation Engagements.	55%	40%	5%

Comments:

12. 6. In relation to the development of new, or the revision of extant, standards as noted in Question 5, and in keeping an open mind as to the impact of the evolving environment and the challenges and opportunities for the IAASB in 2020–2023, should the IAASB, in your view:

- (a) Focus first on a strategic review of extant standards (for example, consider how the standards could be better structured or presented in light of evolving technologies) before prioritizing projects on new topics. Please provide an explanation for your view.
- (b) Prioritize projects on new topics (as determined by the consultation on the IAASB's future strategy and priorities). Please provide an explanation for your view.
- (c) During implementation of the current standards under revision (i.e., those standards that currently have a committed project plan in place), consider a moratorium on developing new or other revised standards? If so, how long should such a moratorium last? Please provide an explanation for your view.
- (d) Undertake other actions related to the development of new, or revision of extant, standards, and/or implementation support. Please describe what these actions should be and provide an explanation for your view.

(a)

Au regard du caractère incertain de l'environnement une analyse des normes existantes permettra de

mesurer leur portée et adéquation et mieux décider sur les projets futurs.

13. 7. If there was a specific topic(s) that, in your view, should be the IAASB's priority(ies) when developing new, or revising existing, standards or related guidance for the period 2020—2023, what would it be, and why?

Where applicable, kindly indicate whether in your view the topic(s) (you have indicated) has particular relevance mainly for engagements for listed entities, small- and medium-sized entities (SMEs), or for entities of all sizes. Views in relation to matters of relevance to developing nations and the public sector are also encouraged.

1. Adaptation des normes pour les missions dans un environnement fortement digitalisé ou en cours de digitalisation dans les PME/PMI particulièrement pertinent dans les pays en développement: les processus de digitalisation ne suivent pas les classiques connues par les pays développés et passent souvent par des outils mobiles en lieu et place des ERP et autres systèmes plus lourds.
2. Adaptation des guides et études de cas pour l'environnement des PME/PMI des pays en développement: le management et les processus productifs de ces entités sont le plus souvent différents et disruptifs par rapport à ceux connus dans les pays développés.

14. 8. Are there any other topics of interest or matters of relevance that you feel the IAASB should consider when conducting its strategic review, including those related to its the way that the IAASB undertakes its activities (e.g., changes to address matters highlighted in the MG review)?

Non
