Response Template: Proposed ISQM 2

Note to respondents:

- The questions below are from the exposure draft of proposed International Standard on Quality Management (ISQM) 2, *Engagement Quality Reviews*, which is available at www.iaasb.org/quality-management.
- Respondents are asked to respond separately to each of the exposure drafts and the overall explanatory memorandum.
- We request that comment letters do not include tables as they are incompatible with the software we use to help analyze respondents’ comments.

Questions

1) Do you support a separate standard for engagement quality reviews? In particular, do you agree that ED-ISQM 1 should deal with the engagements for which an engagement quality review is to be performed, and ED-ISQM 2 should deal with the remaining aspects of engagement quality reviews?
   Response:
   Yes we support this separation

2) Are the linkages between the requirements for engagement quality reviews in ED-ISQM 1 and ED-ISQM 2 clear?
   Response:
   YES

3) Do you support the change from “engagement quality control review/reviewer” to “engagement quality review/reviewer?” Will there be any adverse consequences of changing the terminology in respondents’ jurisdictions?
   Response:
   Yes this is logical.

4) Do you support the requirements for eligibility to be appointed as an engagement quality reviewer or an assistant to the engagement quality reviewer as described in paragraphs 16 and 17, respectively, of ED-ISQM 2?
   Response:
   Generally YES but this could be challenging for smaller firms without sufficient resources.
(a) What are your views on the need for the guidance in proposed ISQM 2 regarding a “cooling-off” period for that individual before being able to act as the engagement quality reviewer?

Response:

Guidance is always helpful but smaller firms should be given some flexibility in applying a strict period.

(b) If you support such guidance, do you agree that it should be located in proposed ISQM 2 as opposed to the IESBA Code?

Response:

No harm in having the requirement in ISQM2, in addition to the IESBA Code, as long as it is consistent.

5) Do you agree with the requirements relating to the nature, timing and extent of the engagement quality reviewer’s procedures? Are the responsibilities of the engagement quality reviewer appropriate given the revised responsibilities of the engagement partner in proposed ISA 220 (Revised)?

Response:

YES

6) Do you agree that the engagement quality reviewer’s evaluation of the engagement team’s significant judgments includes evaluating the engagement team’s exercise of professional skepticism? Do you believe that ED-ISQM 2 should further address the exercise of professional skepticism by the engagement quality reviewer? If so, what suggestions do you have in that regard?

Response:

YES this is essential.

7) Do you agree with the enhanced documentation requirements?

Response:

YES

8) Are the requirements for engagement quality reviews in ED-ISQM 2 scalable for firms of varying size and complexity? If not, what else can be done to improve scalability?

Response:

YES but it will be challenging for SMEs if they need to resort to external resources.
