Strategy and Work Plan 2019-2023

This is an overview of the IPSASB Strategy and Work Plan 2019-2023.

Approved: The IPSASB Strategy and Work Plan 2019-2023 was approved in December 2018 and issued in February 2019.

During 2018, the IPSASB undertook an extensive outreach program to obtain feedback, including regional roundtables in Africa, Asia, Europe and Latin America.
Delivered through two main areas of activity, both of which have a public interest focus:

- Developing and maintaining IPSAS and other high-quality financial reporting guidance for the public sector; and
- Raising awareness of IPSAS and the benefits of accrual adoption.

Strengthening Public Financial Management (PFM) globally through increasing adoption of accrual-based IPSAS.

The IPSASB Strategic Objective refines the one adopted for the 2015-2018 period in order to provide a sharper focus for its future work.
Delivering the Strategic Objective—Five Strategic Themes

Five Strategic Themes will underpin the IPSASB’s activities:

Raising Awareness of IPSAS and the Benefits of Accrual Adoption

Raising awareness of IPSAS and the benefits of accrual adoption is critical to PFM reforms. Different groups with different skill sets are needed throughout the adoption and implementation process.

Theme D—Promoting IPSAS Adoption and Implementation

The PFM reform landscape within individual jurisdictions is complex, and the transition to accrual requires a program of changes across a number of different areas, including professional skills and capacity, systems, internal controls and to processes and requirements for reporting transactions.

This involves a number of different groups, with different skills and expertise at various stages to differing degrees throughout the adoption and implementation process, as shown below.

Raising Awareness of IPSAS and the Benefits of Accrual Adoption

The IPSASB’s view is that the use of accrual information provides the foundation for PFM reform.

**Theme E—Advocating the Benefits of Accrual In Strengthening PFM**

In furthering its Strategic Objective, the IPSASB works with other professional groups, regional bodies and sponsoring organizations to help develop an understanding of the benefits to PFM of IPSAS adoption in improving transparency, accountability and decision making.
Next Steps:

The IPSASB’s work to implement the Strategy and Work Plan is already underway. New projects added to the Work Plan will commence as current ones are completed and staff and IPSASB resources become available.
