¹ The term 'alignment' refers to the formal processes the IPSASB follows to assess the applicability of IFRS and/or GFS requirements when developing pronouncements which faithfully represent the economic substance of transactions in the public sector. Through these processes the IPSASB aims to reduce unnecessary differences with these sources of guidance when they can also be applied in the public sector context.

IPSAS 41 (July 2018)	IFRS 9 (Amended up to December 2015) IFRIC 16 (Amended up to July 2014)		<ul style="list-style-type: none"> IPSAS 41 contains additional application guidance to deal with concessionary loans, financial guarantee contracts entered into at nil or nominal consideration, equity instruments arising from non-exchange transactions and fair value measurement. In certain instances, IPSAS 41 uses different terminology from IFRS 9. The most significant examples are the use of the terms "statement of financial performance" and "net assets/equity." The equivalent terms in IFRS 9 are "statement of comprehensive income or separate income statement (if presented)" and "equity." IPSAS 41 does not distinguish between "revenue" and "income." IFRS 9 distinguishes between "revenue" and "income," with "income" having a broader meaning than the term "revenue." Principles from IFRIC 16, <i>Hedges of a Net Investment in a Foreign Operation</i> and IFRIC 18, <i>Extinguishing Financial Liabilities with Equity Instruments</i> have been included as authoritative appendices to IPSAS 41.
